EDUCATION

University of Pennsylvania | United States of America

08/2026 – 12/2027 (Expected)

- Master of Applied *Economics and Finance*

The University of Hong Kong | Hong Kong, S.A.R.

09/2022 – 06/2026

- Bachelor of *Economics and Finance*, Minor in *Statistics*
- Cumulative GPA: 3.99/4.3 (Third-Year GPA: 4.1/4.3)

INTERNSHIPS

Qingdao Jiahong Investment Management Center (Limited Partnership) | *Intern* | Shenzhen, China

08/2025 – 09/2025

- Participated in an M&A project, collected financial data of target companies and peer listed firms, constructed Dividend Discount models and Relative Valuation models to provide valuation ranges for acquisition targets.
- Analyzed three-year financial statements, identified and flagged anomalies, and performed data cleaning using Excel.
- Utilized STATA to filter multi-currency bond yield data and visualize price trends to analyze U.S. bond market volatility; optimized market sentiment models to enhance their explanatory power regarding investor behavior.
- Established an internal optimization workflow, and developed detailed data cleaning templates.

Deloitte Touche Tohmatsu (Special General Partnership) | *Intern* | Shenzhen, China

07/2025 – 08/2025

- Audited a listed company, preparing and organizing audit workpapers.
- Standardized and cleaned overseas cash and intercompany balances to address inconsistencies and sign discrepancies in original currency data caused by disorganized prior records.
- Performed voucher sampling, inventory observation, walkthroughs, bank and intercompany confirmations.

Futu Network Technology (Shenzhen) Co., Ltd. | *Intern* | Shenzhen, China

06/2024 – 08/2024

- Conducted valuation analysis for eight companies (e.g., Tesla, Meta), analyzing product dynamics and market expectations.
- Developed industry chain maps for over 500 companies in the environmental sector to support client queries.
- Performed a potential customer assessment and starting-fare benchmarking analysis for Baidu's Robotaxi pilot cities.
- Authored over 10 financial analysis reports, published on the Futu official platform with an average of over 20,000 views.

PRACTICAL EXPERIENCE

HKU Tourism Route Optimization System

01/2025 – 05/2025

- Used Python to build a data model based on the travel time matrix, visit time column, and popularity index.
- Applied Hungarian Method, ILP, and Goal Programming to optimize routes under a 120-minute constraint.
- Developed a user-friendly mobile app using Figma, providing real-time route updates and personalized navigation.

Arbitrage Opportunities in Dual-Currency Corporate Bonds

04/2024 – 05/2024

- Reviewed over 200 academic papers to analyze the impact of internal corporate governance on the performance of large private equity funds, and developed a corresponding research framework.
- Used STATA to filter bond data from the U.S. market in different currencies, and removed outliers and irrelevant data.
- Visualized cleaned bond data and conducted quantitative analysis of yield and price volatility.

Apple Inc. ESG Case Study (remote project hosted by Marshall School of Business, USC)

10/2023 – 11 /2023

- Evaluated Apple's DEI performance within its supply chain and provided solutions to address labor disputes.
- Analyzed five years of ESG disclosures using SASB-aligned indicators and NLP techniques on 500+ media reports to quantify DEI performance and controversy drivers.
- Authored a 15-page analysis report and completed the presentation; the project was recognized as a *Best Practice* case.

MetroFin Virtual Team Meeting Optimization

09/2023 – 12/2023

- Conducted research on historical data and feedback to analyze the causes of low efficiency and related influencing factors.
- Designed an *option*-based reward mechanism to incentivize technology sharing between onshore and offshore teams.
- Assessed key risks and developed mitigation strategies, including a three-month online training program.

Innovative Strategies for Bodibra Entering the Mainland Market

06/2023 – 08/2023

- Analyzed market size, growth, and competitive landscape to assess Bodibra's positioning in the mainland underwear market.
- Conducted quantitative consumer analysis on pricing sensitivity and purchase behavior, and proposed a data-driven body measurement solution to support online channel expansion.

SKILLS & HOBBIES

Computer Skills: STATA, R, Python, VS Code

Hobbies: Piano (ABRSM Grade 8, 7 years of experience), managing a Chinese social media platform account
